

ABOUT US

Private Space Medical is a Singapore-based holistic mental health clinic providing psychological assessments, psychiatric interventions including medications, and psychological therapy. We treat depression, anxiety, ADHD, and other mental health conditions from children to the elderly.

Our Psychiatrists and Psychologists graduated from top Singapore and international universities, had years of experience working in government hospitals, and received training and awards both locally and abroad.

Our mission is to be a centre of clinical excellence providing top-class patient experience within a private and safe space. We are committed to caring for our patients and journeying with them toward Positive Change and Purposeful Lives.
